

# Technology Poster Activity

## (HS. 22 Technology and the impact humans have had on the physical environment)

**Directions:** Using a blank sheet of white paper, draw a poster to illustrate how humans have used technology to have an impact on the physical environment they live in.

**Poster Requirements:**

- Choose One type of technology:
  - Highways and Interstates
  - Suburbs (Housing Developments)
  - Dams
  - Or any other type of technology that was originated from the 1950's (Only w/teacher approval!!)
- Title (tells the viewer what technology you are making a poster of)
- Very Colorful (catches the viewer's eye)
- Memorable Picture (Relates to the title/message & viewer)
- Creative & Unique
- Questions answered on back of poster

**Questions (answered on back of poster in 2-3 paragraphs):**

1. What is the intended use of this technology?
2. How would this technology help people in the 1950's?
3. How was the physical environment impacted by this technology in the 1950's?

**Answer these questions (as well as those above) in 2-3 paragraphs on the back to receive higher than a 2.0:**

4. What are 3 of the most important technological developments of the past ten years?
5. How have those 3 technological developments helped people living today?
6. How have those 3 technological developments negatively impacted people of today, or how might they negatively impact the future? Explain
